56 years old born 1962 in the month of September, in Ethiopia in small town called Deder where I finished my year 10. then moved to high level study to a town called baherdar where i finished my degree in science. 1984.

My belief is from orthodox background and Christian from birth. I arrived in Australia in 1987. married 1988 and have 3 girls. My hobby is sport, reading and writing. I got my first Diploma in Information Tech. (software Development) 1995, and been a bus driver for Melbourne Transport for 20 years. and a Driver Instructor for over 30 years.

## My interest in IT?

My number 1 interest is to become a software developers and become creative technical expertise to carry out innovative ideas.

## When did your interest in IT start?

My interest starts when I was hired as a bus driver in 1990 and my manager offered me a short course to enroll for spreadsheet 123 (LOTUS) the old spreadsheet business the number one software in the market. Since then I have developed interest in IT.

Was there a particular event or person that sparked your interest? Yes especially during my study where there was no even a knowledge of understanding of kilobytes era with IBM production 256 monitor that has no window in it which uses a DOS floppy disk a single and double sided option with a dot matrix printer which prints slow

My boss has given me all the interest in Information T, when I was a driver in the organisation  
To promote me from a driver to depot controller. To manage all the fleet through the GPS for all buses that are out on the road. Which require a data entry knowledge and recording a day mileage and logbook to the sheet document.

## Outline your IT experience (if any).

### My IT experience

Started back in the 1995 when I started studying during my school time and to start knowing how the system works Networking  
And operates in different networking topology  
and to develop or write a software using COBOL (common business oriented language)  
and also able to use all office applications.  
Tools in a daily basis. Now dates different than 20 years ago, but I have some educational experience in my daily life using so many of new applications From the mobile phone to using Facebook and youtube.

## Why did you choose to come to RMIT?

The reason is to come back to RMIT because of its number 1 reputation for IT subject. As one of Australia's top 5 universities for online exchange, RMIT gives me the opportunity to make my mark on the world through a unique study experience tailor-made for the individual. With campuses in Melbourne and as well as access to over 150-plus partner institutions, studying at RMIT puts the world at my fingertips.

At RMIT I'll learn from experts working at the forefront of their fields and benefit from teachers and lecturers who apply their research discoveries, industry judgement and specialist expertise directly to my programs.

As a QS 5-star rated institution, RMIT is ranked as one of the world's leading universities with a strong research record and state-of-the-art facilities and infrastructure. Whether I complete my degree in Australia or on exchange anywhere in the world, RMIT provides me with the best experience possible along with the skills to succeed in my chosen career.

### Practical learning experiences

At RMIT encourages me to satisfy my curiosity about the world while developing the skills and direct industry experience that sets my graduates apart and make employers sit up and take notice.

### Skills-based education

Students graduate equipped with world-class technical skills as well as an in-depth understanding of current industry practices. RMIT specialises in practical, industry-based learning designed to give me the skills and direct experience that employers value.

## What do you expect to learn during your studies?

Advance my skills for successfully delivering complex projects across many industries. Study this undergraduate project IT degree and advance my skills for successfully delivering complex projects across many industries. Be a leader in business information technology. In this 3-year degree I'll analyse, design and build sophisticated business information systems and develop technical and business skills highly sought after by employers across many industries.

Software developers, creative, brainstorming masterminds behind computer programs of all sorts. Which let me run my existing business to full potential.

## QUALIFICATION:

- **CERT III IN driving instructor , Diploma of information Technology.**  
**CERTIFICATE III IN MICRO BUSINESS OPERATION**
- **VIC ROADS ACCR CERTIFICATE IV FROM MOONE PONDS DRIVING SCHOOL**
- **Grade 4 Licence heavy Bus Driving from DECCA**
- **Cert IV accredited instructor by keys2drive**

## **SKILLS:**

- **20 years bus Driving**
- **20 years of customer service in the industry**
- **Anglesea 3 days defensive course**
- **2000 Sydney Olympic participant .**

**Managing a business for 10 years as Instructor for driving school. Which been my full time job with a number of employees under my management.**

**My Ideal Job:**

Developer, programmer.

**Job Title:**

**Developer Programmer**

**Salary:**

**\$80,000**

**Location:**

**Wodonga Region**

**Company:**

**Saas Val Pty Ltd**

**Skill**NEED:<https://www.adzuna.com.au/details/2037215979/apply?v=FA71687A4B3A67D17567B7EBFE574D3627EC3519&se=rAVjNZKB6xGUE68DJ4xSKg>

- **Code and test programming for software and mobile apps.**
- **Develop and deploy computer applications.**
- **Execute code builds to test and production environments.**
- **Fix bugs in existing code.**
- **Collaborate with product, design, and marketing teams.**
- **Maintain documentation per company standards.**
- **Provide testing, documentation, training, and support for third-party software products.**
- **Resolve user-submitted problems and questions.**

**Masters or Bachelors Degree in Computers**

**4 to 5 years Experiences**

**Learning Plan:**

**Study online to study my information Technology in 2021.**

# My Personality Profile:

Myers Briggs Type <https://www.16personalities.com/profiles/f5b861ccc4898>

Type        “The Entertainer” (ESFP-A)

Traits

- Extraverted        - 54%
- Observant        - 54%
- Feeling            - 67%
- Prospecting       - 51%
- Assertive         - 58%

Role        Explorer

Strategy    People Mastery

## Strength:

**Bold – Entertainers aren't known for holding back. Wanting to experience everything there is to experience, people with the Entertainer personality type don't mind stepping out of their comfort zones when no one else is willing.**

- **Original – Traditions and expectations are secondary to Entertainers, if a consideration at all. Entertainer personalities love to experiment with new styles, and constantly find new ways to stick out in the crowd.**
- **Aesthetics and Showmanship – Not stopping at mere outfits, Entertainers inject artistic creativity into their words and actions, too. Every day is a performance, and Entertainers love to put on a show.**
- **Practical – To Entertainers, the world is meant to be felt and experienced. Truth is stranger than fiction, and Entertainers prefer to see and do than to wax philosophical about “what-ifs”.**
- **Observant – With all this focus on the here and now, on doing and acting, it makes sense that Entertainers are naturals when it comes to noticing real, tangible things and changes.**

- **Excellent People Skills – More so than things though,**  
**Entertainers love to pay attention to people. They are talkative, witty, and almost never run out of things to discuss. For people with this personality type, happiness and satisfaction stem from the time they spend with the people they enjoy being with.**

## **Weaknesses:**

**Sensitive – Entertainers (especially Turbulent ones) are strongly emotional, and very vulnerable to criticism – they can feel like they've been backed into a corner, sometimes reacting badly.**

**This is probably Entertainers' greatest weakness, because it makes it so hard to address any other weaknesses brought to light.**

- **Conflict-Averse – Entertainers sometimes ignore and avoid conflict entirely. They tend to say and do what's needed to get out of such situations, then move on to something more fun.**

- **Easily Bored** – Without constant excitement, Entertainers find ways to create it themselves. Risky behavior, self-indulgence, and the pleasures of the moment over long-term plans are all things Entertainers get into a little too often.
- **Poor Long-Term Planners** – In fact, Entertainer personalities rarely make detailed plans for the future. To them, things come as they come, and they rarely bother with taking the time to lay out steps and consequences, with the belief that they could change at any moment – even with things that *can* be planned.
- **Unfocused** – Anything that requires long-term dedication and focus is a particular challenge for Entertainers. In academics, dense, unchanging subjects like Classic Literature are much more difficult than more dynamic, relatable subjects like psychology. The trick for Entertainers is to find day-to-day joy in broader goals, and to tough it out with those tedious things that must be done.

My Project Idea:

**My project idea comes here for the business currently i am running for driving school purpose, which has strong market segment. As a manager I have seek to explore the latest advanced and effective tool leads to the growth of the business, preferences towards cloud-based technologies, introduction of artificial intelligence enabled tools, provision of various benefits such as tracking, consistency along with rising return on my investment. The idea to my business that has the power to**

edit booking orders from Owner App that can update customer emails and pickup point and drop off point addresses from the order screen in the app. **Discover a new and Improved Mobile App to manage my site**

for quicker and more efficient way to track analytics, chat with site visitors and run my business on the go. And that reply to blog comments with rich text and that enable comments to enable comments to let them create a conversation around my blog posts. And the App that invite my team to become call agents capability and also that have the capability

to boost my customer service multiple agents the ability to make and answer calls on my business phone number at the same time and the application

That record calls made to my business phone number and review them any time. which call recordings are seamlessly integrated into my CRM, and can listen to them from my Inbox.

**I believe Such adoption of advanced and effective tool leads to the growth of my business, preferences towards cloud-based technologies, introduction of artificial intelligence enabled tools, provision of various benefits such as tracking, consistency along with rising return on my investment.**
